

# **RIGHT GUIDANCE AND COMPLETE SUPPORT**

*“Where there is a will, there is a way”.*

Weekend Batch:

This course is generally opted by working professionals and college going students who steal time from their busy scheduled to prepare for the examination.

This course is a mix of teaching, extempore, expert visits and insights in an IAS officer’s life through tours to their offices.

The uncertain nature of the examination develops an array of misunderstandings, misinformation and miscalculation, all of which are tackled cumulatively in our classes and individual sessions of faculties, experts and mentors

The major focus here lies in guiding an aspirant to his own light, rather than imposing on them light of others.

Having a stretched outlay of 42 weeks, our focus here lies in developing confidence and personality of the student through personal attention by faculty members, peer review climate and group discussions along with the backing of knowledge attained in the class.

The course design here is placed out to utilize your spare time with optimum efficiency and enables you to manage Civil Services Exam preparation, without hampering your work or college schedule.
